CLUB PROGRAM

One of the most important keys to our High Performance program is that all our players join a Spanish club in the evenings to train and play La Liga. The club is assigned based on the player's age and playing ability, and can be a 1st, 2nd, 3rd, 4th or 5th Division club in Spain. Our coaches monitor the player's performance weekly and we make sure that player integrates well in his new Spanish team. Our private transfer take the players to the practices and games in weekends. 3/4 Training Sessions + Official Game.

CLUB PROGRAM

SSA TRAINING PROGRAM

Our SSA method is based on our personal experience as Players, Directors and Coaches that we have been in clubs such as Real Betis or Sevilla FC or Spain National Football Team, considered one of the best Football Academies in LA LIGA.

5 Training Sessions/Week led by Spain Soccer Academy PRO coaches.

Professional training in small groups. Depending on the player's position to enhance tactical, technical, mental and physical development.

SSA TRAINING PROGRAM

VIDEO SESSIONS

Our High Performance Program is based on daily feedback from our coaches to the players, both in the training pitch during the proposed exercises and in the video room where the matches are studied weekly to learn from successes and mistakes.

TRAINING METHODOLOGY

The SSA Method is a training plan of actions aimed at sports, human growth and self-knowledge of football players, which begins when an athlete with sports talent, personality and a character of his own arrives.

The 3 fundamental parts of our method are:

- **Train for Life:** it is based on the training of emotional intelligence (self-knowledge, self-control, self-motivation, social skills, leadership, courage ...) that will be transferred to training, competition and life situations.

- **Train the Spanish Game Model:** way to train and compete of the Spanish professional teams, with their own style of play, a positive attitude and dominating the ball in the attack and defense phase of football.
- **Education and Attention to the Footballer:** The objective is that the soccer player be supported by professionals: mentors, professors, psychologists, nutritionists, physiotherapists, coaches, teammates.

And at the same time that he plays football is formed in academic studies or in the learning of a new language like Spanish, investing time in his educational training.

Spain Soccer Academy is a Professional Soccer Academy, and I refer to Professional because it firstly has a body of coaches who have passed through professional Spanish soccer, since they are all former professional players and have also developed as professional coaches, this without a doubt. some is something totally incredible and indescribable, sharing day to day with them, learning from them, sharing their experiences and enjoying how excellent they are as human beings, and if we add to that the entire weekly schedule, where we train at the academy, we train with clubs, we compete in clubs on weekends, we have the opportunity to play against professional teams such as Sevilla FC, Real Betis Balompié and Cadiz FC to mention just a few, we have guaranteed transportation, guaranteed lodging, insurance guaranteed doctor, schools to study, it is the greatest opportunity that any boy who likes soccer can have, so I think that only 5 stars would not be enough to qualify it, we should give them 20, and all this is based on my personal experience, so I invite you to enjoy it too.

Jesús Estevez (CUBA).

Seville is also only an hour from the magnificent white sandy beaches of southern Spain, in the cities of Cádiz and Huelva.

Seville is visited each year by more than 2 million tourists, is the third most visited city in Spain and tourism figures continue to rise. The readers of the prestigious magazine "Travel and leisure" choose Seville as the seventh best place in the world. For its part, the American magazine "Huffington Post" refers to Seville as the second city in the world to visit before you die.
